

## NO-GO Zones

22 NO-Go Zones already exist in America.

These zones are where no American can go. Here moderate muslims breed Islamic hate.

What is a no-go zone? A no-go zone is where nobody except a muslim goes. If anyone else goes in they are attacked.

They have gates. They have armed security forces. If you go in you are told to leave.

Muslims buy land and then establish their training camp. Most people dare not expose this to the public. IF they do they are labeled and branded as racist, ignorant and xenophobic, even though everything they say is true.

9 different states have these no-go zones according to Marlin Mawyer.

Marlin Mawyer wrote ' *Twilight in America* '

Why should we object to a muslim no-go zone?

Because:

**Islam is a system of governance. It is a political organization. This political system of governance is enforced strictly and harshly.**

Islam, which is the practice of the muslim, is not a religion.

Main focus point: The governance occurs through the laws of Sharia which is the muslim system of governance which is enforced by muslims where muslims congregate.

We cannot have a different governance within America outside of American Law.
